- Keep in mind that the ABQ is on three certain units every year. For 2019 it is units 1, 2 & 3, and for 2020 it will be units 2, 3 & 4, etc.

Our Predictions:

- Ethics and the environment will almost definitely appear on question 2.
- The EU is worth knowing very well because of it's frequency and because of 'Brexit'.
- Sectors of the economy will appear if it's pattern continues.
- Industrial Relations & Contracts will likely appear more this year than it has in recent years.
- Topics above of high frequencies will be a large part of the paper as usual, e.g. Marketing.
- Consumer protection will likely make up most of question 1.
- Of the low frequency topics, 'Entrepreneurs & Enterprise' is a good topic to learn because it is quick and is guaranteed to be a part of the ABQ.
